These fittings are made using Poux Plastics, Inc's unique fabrication process that allows the body of the end flush or starter tee to be one solid piece of sch 80 pipe. There is no longer the need to glue multiple pieces together to assemble an end flush or starter tee.

These fittings can be made to your exact specifications. Please contact Poux Plastics, Inc for more information.

All fittings can be drilled and tapped to accomodate a pressure gauge.
Please specify when ordering.
